UNIVASA MOBILE APP BUILDER

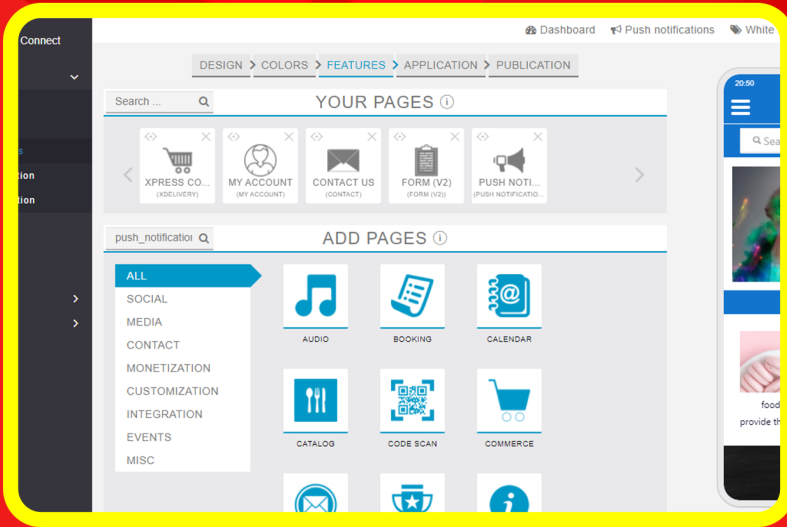

“Does my business need a mobile App?” you might ask. Well, yes indeed, your business needs a mobile app for a number of reasons but majorly for the purpose of providing value to your customers and separating your business from the crowd.

Developing a mobile App for your business can offer valuable marketing opportunities and help you reach your target audience, as well as many other advantages that will help put you ahead of your competition.

Univasa Mobile App Builder is the bridge helping you garner value for your business whilst saving a fortune.

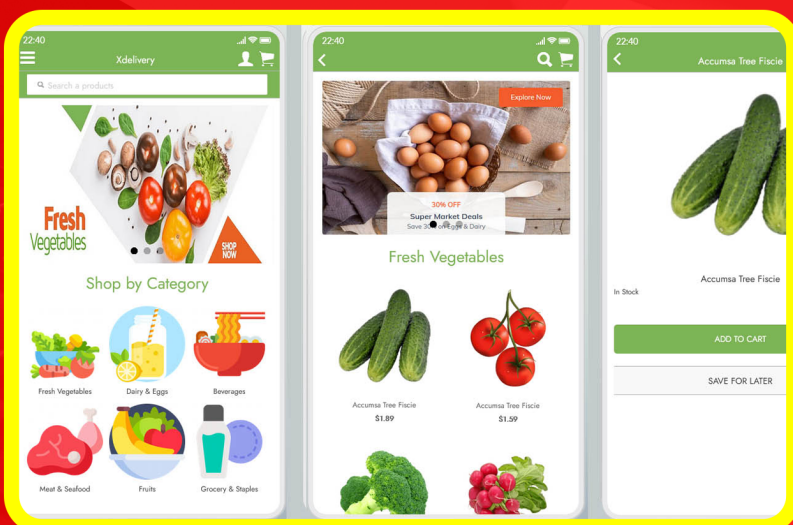

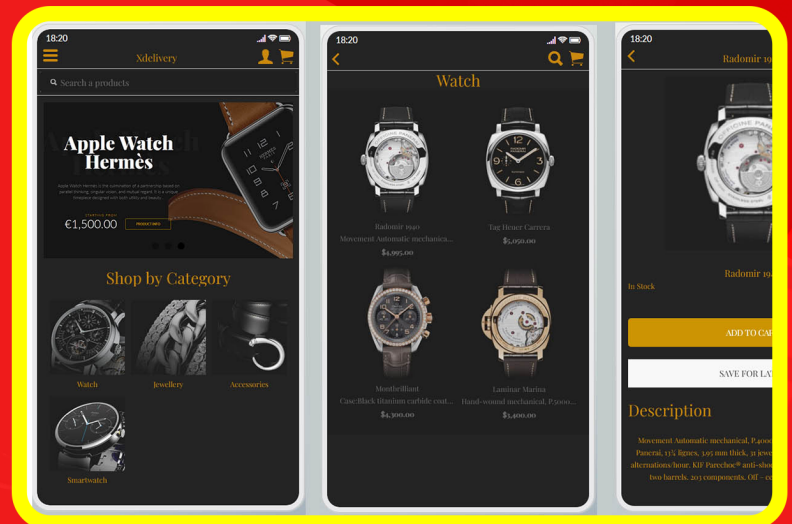

As a business owner, it is important that you reach a large audience base regularly to build brand awareness and increase your sales chance. With a mobile app, you will be able to improve your brand awareness, customer visibility and customer engagement such that there is now a direct communication line between your business and customers; enquiries and feedbacks from customers will be easily attended to ensure retention. An effective mobile strategy involves more than just a mobile-friendly website. The fear of high-priced developers does not need to be a deterrent any longer, Univasa Mobile App Builder offers pocket friendly prices across flexible packages suitable for all business types.

Features

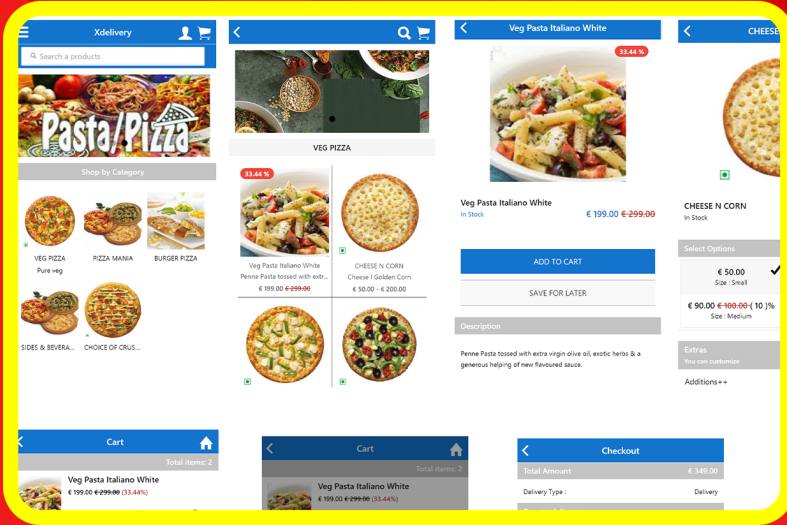

DESIGN ENGINE:
Extremely simple and intuitive design engine that allows you to create a great mobile experience for your users.

NATIVE iOS APPS: Build native apps for Apple mobile devices. Create an iOS app and publish it to the Apple App Store for iPhone and iPad users.

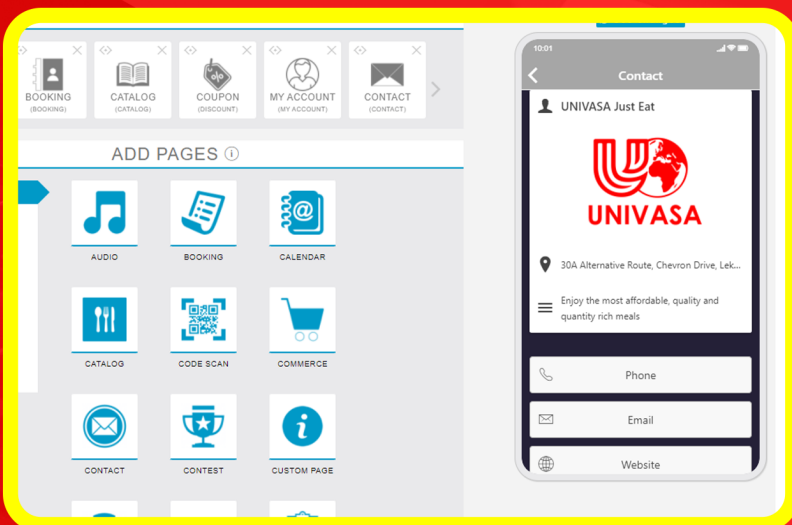

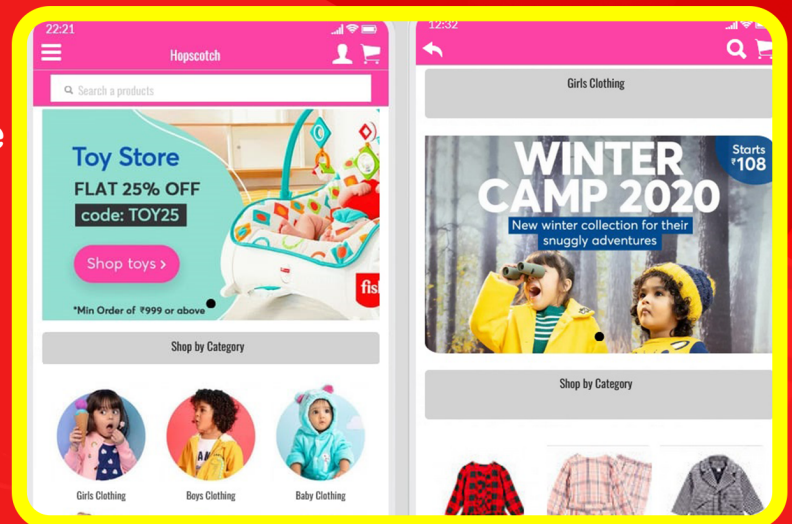

NATIVE ANDROID APPS:
Native apps built for Android devices. Build your app and publish it to the Google Play store for Android users to download.

Features

MULTIPLE LANGUAGE SUPPORT: You have the freedom to use a single app in multiple countries or in any situation where your users speak different languages.

PROGRESSIVE WEB APPS: Mobile apps built with progressive technology. They are delivered through the user's web browser, which allows for a seamless experience - no need to download an app.

CONTACT: The "Contact" feature displays important general information such as business location, website, contact info (phone & email), and hours of operation.

Features

TRANSACTIONS			
Customer	Total	Payment method	Status
Igho Iruesiiri	NGN 15000	Bank Transfer	Pending
Igho Iruesiiri	NGN 6000	Cash On Delivery	Success

< 1 >

TRANSACTIONS: Keep a pulse on all of your in-app transactions, from food ordering to merchandise. Availability of transaction data makes the task of bookkeeping a breeze.

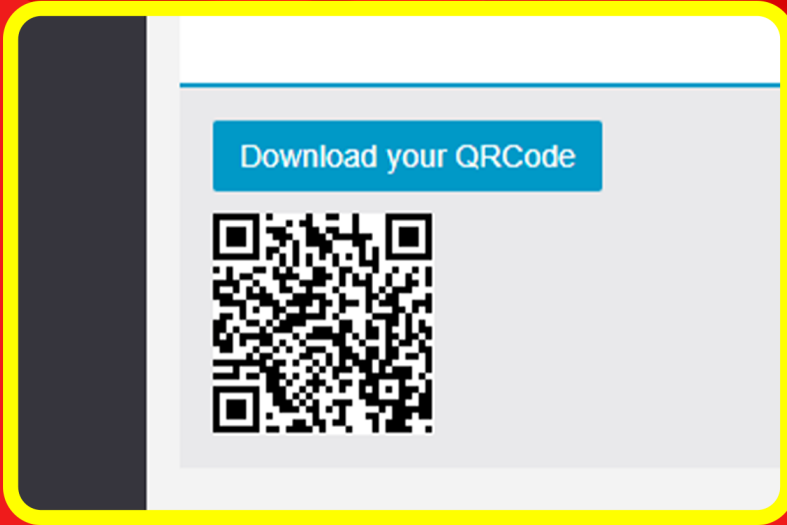

APP ANALYTICS: Keep track of users and interactions to see how well your app is performing. Make adjustments along the way to deliver the best possible experience to your users.
